About Fusion Fuel Green plc

Fusion Fuel is rapidly emerging as a leader in the green hydrogen sector committed to accelerating the energy transition through the development of disruptive, clean hydrogen solutions. Fusion Fuel's patented miniaturized Proton Exchange Membrane (PEM) electrolyzer, the HEVO, and building-block approach to green hydrogen production, unlock unprecedented modularity and flexibility in the design and deployment of cost-competitive, decentralized green hydrogen solutions. Its business lines include the sale of its electrolyzer technology to customers interested in building their own green hydrogen production, the development of turnkey hydrogen plants to be owned and operated by Fusion Fuel, and the sale of green hydrogen as a commodity to end-users through long-term hydrogen purchase agreements.
