Notice of Delisting or Failure to Satisfy a Continued Listing Rule or Standard; Transfer of Listing.

On November 6, 2023, Fusion Fuel Green Plc (the “Company”) received a deficiency notice (the “Notice”) from the Listing Qualifications Department (the “Staff”) of the Nasdaq Stock Market LLC (“Nasdaq”) notifying the Company that, for the last 30 consecutive business days, the closing bid price for the Company’s Class A ordinary shares (the “Ordinary Shares”) had been below the minimum of \$1.00 per Ordinary Share required for continued listing on The Nasdaq Global Market (the “Minimum Bid Price Rule”). The Notice has no immediate effect on the listing of the Ordinary Shares, which will continue to trade on The Nasdaq Global Market under the symbol “HTOO” without interruption at this time.

In accordance with Nasdaq Listing Rules, the Company has 180 calendar days, or until May 6, 2024, to regain compliance with the Minimum Bid Price Rule. If at any time before May 6, 2024, the closing bid price of the Ordinary Shares is at least \$1.00 per Ordinary Share for a minimum of 10 consecutive business days, the Staff will provide written confirmation that the Company has achieved compliance and the matter will be closed.

If the Company does not regain compliance with the Minimum Bid Price Rule by May 6, 2024, the Company may be afforded a second 180 calendar day period to regain compliance or be subject to delisting. To qualify for an additional compliance period, the Company would be required to meet the continued listing requirements regarding the market value of publicly held Ordinary Shares and all other initial listing standards, except for the minimum bid price requirement. In addition, the Company would be required to notify Nasdaq of its intent to cure the deficiency during the second compliance period.

The Company intends to actively monitor the closing bid price for its Ordinary Shares and will consider available options to resolve the deficiency and regain compliance with the Minimum Bid Price Rule. However, there can be no assurance that the Company will be able to regain compliance with the Minimum Bid Price Rule.

Fusion Fuel Green Receives Nasdaq Deficiency Notice Regarding Minimum Bid Price Requirement

Ordinary shares will continue to trade on the Nasdaq Global Market, and the Company's listing on such exchange is not affected by the receipt of the Notice

DUBLIN, Ireland, Nov. 07, 2023 (GLOBE NEWSWIRE) -- On November 7, 2023, Fusion Fuel Green Plc (NASDAQ: HTOO) (the "Company"), an emerging leader in the green hydrogen space, disclosed that on November 6, 2023 the Company received notice (the "Notice") from the Nasdaq Stock Market LLC ("Nasdaq") that the Company is not currently in compliance with the \$1.00 minimum bid price requirement for continued listing of the Company's ordinary shares (the "Ordinary Shares") on the Nasdaq Global Market, as set forth in Nasdaq Listing Rules (the "Minimum Bid Price Requirement"). The Notice indicated that the Company has 180 days, or until May 6, 2024 (the "Compliance Deadline"), to regain compliance with the Minimum Bid Price Requirement by having the closing bid price of the Ordinary Shares meet or exceed \$1.00 per Ordinary Share for at least ten consecutive business days.

The Notice has no immediate effect on the listing of the Company's Ordinary Shares, which continue to trade on The Nasdaq Global Market under the symbol "HTOO". The Company intends to monitor the closing bid price of its Ordinary Shares and may, if appropriate, consider implementing available options to regain compliance with the Minimum Bid Price Requirement. If the Company does not regain compliance by the Compliance Deadline, the Company may be afforded an additional 180 calendar day period to regain compliance as provided by the Nasdaq Listing Rules.

About Fusion Fuel Green PLC

The Company is an emerging leader in the green hydrogen space, committed to accelerating the energy transition and decarbonising the global energy system by making zero-emissions green hydrogen commercially viable and accessible. It has created a revolutionary proprietary electrolyser solution that allows it to produce hydrogen at highly competitive costs using renewable energy, resulting in zero-carbon emissions. The Company's business lines include sales of electrolyser technology to customers interested in building their own green hydrogen capacity, development of hydrogen plants to be owned and operated by the Company and active management of the portfolio of such hydrogen plants as assets, and the sale of green hydrogen as a commodity to end-users through long-term hydrogen purchase agreements.

The Company is organised under the laws of Ireland and maintains its registered office in Ireland at The Victorians, 15-18 Earlsfort Terrace, Saint Kevin's, Dublin 2, D02YX28, Ireland.
