FUSION FUEL GREEN plc

887,979 Class A Ordinary Shares

This prospectus relates to the offer and sale from time to time by the selling shareholders identified herein or their permitted transferees (each, a “selling shareholder” and collectively, the “selling shareholders”) of up to 887,979 Class A ordinary shares, par value \$0.0001 par value per share (“Class A Ordinary Shares”), of Fusion Fuel Green plc, a public limited company incorporated in Ireland (the “Company,” “we,” “us” and “our”). The number of shares is estimated based on the price of our Class A ordinary shares as of March 18, 2024. The actual number of shares that may be issued to the selling shareholders may be more or less depending on the actual share prices of our securities as described in more detail in this prospectus.

The Class A Ordinary Shares offered for sale may be issued to the selling shareholders upon conversion and exercise of certain convertible notes (the “Placement Notes”) and warrants (the “Placement Warrants”), respectively, subscribed for in a private placement pursuant to a Securities Subscription Agreement, dated November 21, 2023 by and among the Company and the selling shareholders (the “Securities Subscription Agreement”), as described further herein. We are registering the securities described above for resale pursuant to a registration rights agreement (the “Registration Rights Agreement”) executed between us and the selling shareholders in connection with the Securities Subscription Agreement. The selling shareholders may offer and sell the securities covered by this prospectus in a number of different ways and at varying prices. The selling shareholders may, or may not, elect to sell their Class A Ordinary Shares covered by this prospectus, from time to time as and to the extent they may determine, through public or private transactions at prevailing market prices or at privately negotiated prices.

We will not receive any of the proceeds from the sale by the selling shareholders of the Class A Ordinary Shares, although we may receive up to a maximum of \$345,000 from the exercise of warrants exercised by the selling shareholders assuming all of such warrants are exercised on a cash basis (assuming \$1.15 million of Placement Notes are issued).

Our Class A Ordinary Shares and public warrants (which are different from the Placement Warrants) trade on the Global Market of The Nasdaq Stock Market, or “*Nasdaq*,” under the symbols “HTOO” and “HTOOW” respectively. The last sale price of our Class A Ordinary Shares and warrants on March 19, 2024 was US\$1.60 per share and US\$0.19 per warrant, respectively.

History and Overview

Fusion Fuel Green plc (“Fusion Fuel,” the “Company,” “we,” “us,” “our” and similar terms) was incorporated in Ireland on April 3, 2020 as a private limited company under the name Dolya Holdco 3 Limited. On July 14, 2020, we changed our name to Fusion Fuel Green Limited. On October 2, 2020, we converted into a public limited company incorporated in Ireland under the name “Fusion Fuel Green plc.” On December 10, 2020, we completed a business combination pursuant to that certain Amended and Restated Business Combination Agreement (“Business Combination Agreement”), which we entered into on August 25, 2020, with HL Acquisitions Corp., a British Virgin Islands business company (“HL”), Fusion Welcome – Fuel, S.A., a public limited company domiciled in Portugal, sociedade anónima (now known as Fusion Fuel Portugal, S.A., “Fusion Fuel Portugal”), Fusion Fuel Atlantic Limited, a British Virgin Islands business company and wholly-owned subsidiary of ours (“Merger Sub”), and the shareholders of Fusion Fuel Portugal (“Fusion Fuel Shareholders”). Pursuant to the Business Combination Agreement, (i) Merger Sub merged with and into HL (the “Merger”), with HL being the surviving entity of the Merger and becoming a wholly-owned subsidiary of ours, and (ii) we acquired all of the issued and outstanding shares of Fusion Fuel Portugal (the “Share Exchange,” and together with the Merger, the “Transactions”), resulting in Fusion Fuel Portugal and HL becoming wholly-owned subsidiaries of ours and the securityholders of Fusion Fuel Portugal and HL becoming securityholders of our company. Immediately following the closing of the Transactions, we consummated the closing of a series of subscription agreements with accredited investors for the sale in a private placement of 2,450,000 Class A Ordinary Shares for an aggregate investment of approximately \$25.1 million. Following the Transactions, HL was dissolved.

Our mission is to produce hydrogen with zero carbon emissions, thereby contributing to a future of sustainable and affordable clean energy and the reversal of climate change. We produce green hydrogen with a proprietary combined electrolyzer and solar energy system using own production capabilities and strategic production partnerships.

Our business plan includes the sale of technology to parties interested in generating green hydrogen at an attractive cost (including to natural gas networks, hydrogen refueling stations, ammonia producers, oil refineries, and other similar customers), the development of hydrogen plants to be operated by us and active management of the portfolio of such hydrogen plants as assets, and the sale of green hydrogen as an output in pre-defined high potential areas.

Prior to the Transactions, Fusion Fuel Portugal was a subsidiary of Fusion Welcome, a European leader in concentrated photovoltaic technology or “CPV” technology. Since 2008, Fusion Welcome has installed over 20 solar CPV plants throughout Europe and the MENA (Middle East and North Africa) region, and over time became the leading CPV solar solution provider in Europe. The management team of Fusion Welcome also developed relationships with key stakeholders throughout the energy, regulatory, and commercial spheres. Recognizing the potential of green hydrogen, the management team of Fusion Welcome launched a subsidiary, Fusion Fuel Portugal, in July 2018, to begin R&D of an alternative to Brown and Grey Hydrogen, with the goal of minimizing the associated carbon footprint, and to provide a market solution for meeting emissions reduction targets.

Starting with the principle of recovering waste heat from the solar energy conversion process, Fusion Fuel Portugal began to explore possibilities to use this energy to generate green hydrogen. Fusion Fuel Portugal’s technology was independently validated by the technology department from Lisbon’s Instituto Superior de Técnico (the “University”). The University produced a study commissioned by GALP, a major Portuguese oil and gas multi-national company. The purpose of the study was to perform a technological assessment of the viability of Fusion Fuel Portugal’s Hydrogen Generator. The study found that the Hydrogen Generator’s system presented a “differentiating advantage” with its technology as it has the typical characteristics of a conventional PEM (polymer electrolyte membrane) electrolyzer, but with a reduced size that is compact and integrated in a concentrator photovoltaic system. The reduced size of the electrolyzer allows for thermal and electrical integration through solar concentration directly in the cell. In other similar technologies, the concentrator photovoltaic system is not conducted within the cell. The University study acknowledges that the Hydrogen Generator was built with all of the appropriate materials available on the market and that the integration of the solar photovoltaic concentration system with the HEVO (formerly referred to as the DC-PEHG) electrolyzer seems well achieved. Fusion Fuel Portugal did not commission or fund any portion of this study, nor did Fusion Fuel Portugal have any role in selecting the professor that conducted the study, and has obtained permission to use the results of the study.

Fusion Fuel is bringing its proprietary technology to the market after extensive production research and testing, including external green hydrogen purity testing by LAQV Requirimte Laboratory to confirm it can be used for all major industrial purposes and targeted key markets. Fusion Fuel Portugal has developed its first green hydrogen plant in Evora, Portugal (“Evora”). In addition, Fusion Fuel has begun to seek to expand its business in Europe, the Middle East and North Africa (“MENA”) region and the United States.

Private Placement of Notes and Warrants

On November 21, 2023, we entered into a Securities Subscription Agreement with the selling shareholders pursuant to which the selling shareholders committed to subscribe for convertible promissory notes (the “Placement Notes”) in the aggregate principal amount of up to \$20 million, in tranches based on certain requirements set forth in the Securities Subscription Agreement. The initial tranche to be closed upon in the initial closing will be \$1.15 million. We also agreed to issue to the selling shareholders warrants (the “Placement Warrants”) in an amount equal to 30% of the value of the Placement Notes subscribed for by the selling shareholders (collectively, the “Private Placement”). A condition to the closing of the initial tranche of Placement Notes is the filing and effectiveness of the registration statement of which this prospectus forms a part. We have agreed to register the resale of the shares issuable upon conversion and exercise of the Placement Notes and Placement Warrants, respectively, issued in the first tranche.

In connection and concurrently with the execution of the Securities Subscription Agreement, we also entered into a Registration Rights Agreement (the “Registration Rights Agreement”) with the selling shareholders pursuant to which we agreed to register 200% of the maximum number of Class A Ordinary Shares issuable upon conversion of the Placement Notes (the “Placement Note Shares”) and exercise of the Placement Warrants (“Placement Warrant Shares”). Accordingly, pursuant to the terms of the Registration Rights Agreement, we have registered the resale of up to an aggregate of 46,337,918 shares that may be issued under the Placement Notes and the Placement Warrants pursuant to the registration statement of which this prospectus forms a part. The Private Placement, the Securities Subscription Agreement, the Placement Notes and the Placement Warrants are more fully described in the section titled “*Private Placement of Notes and Warrants*” below.

Foreign Private Issuer

We are a “foreign private issuer” as defined under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). As a foreign private issuer under the Exchange Act, we are exempt from certain rules under the Exchange Act, including the proxy rules, which impose certain disclosure and procedural requirements for proxy solicitations. Moreover, we are not required to file periodic reports and financial statements with the Securities and Exchange Commission (the “SEC”) as frequently or as promptly as domestic U.S. companies with securities registered under the Exchange Act, and we are not required to comply with Regulation FD, which imposes certain restrictions on the selective disclosure of material information. In addition, our officers, directors, and principal shareholders will be exempt from the reporting and “short-swing” profit recovery provisions of Section 16 of the Exchange Act and the rules under the Exchange Act with respect to their purchases and sales of our ordinary shares.

The Nasdaq Listing Rules allow foreign private issuers, such as us, to follow home country corporate governance practices (in our case Irish) in lieu of the otherwise applicable Nasdaq corporate governance requirements. In accordance with this exception, we follow Irish corporate governance practices in lieu of certain of the Nasdaq corporate governance standards, as more fully described in our Annual Report, which is incorporated herein by reference. See “*Where You Can Find Additional Information*” on page 23.

Risk Factor Summary

Investing in our securities involves significant risks. You should carefully consider all of the information in this prospectus before making an investment in our securities. Below please find a summary of the principal risks we face. These risks are discussed more fully in “*Item 3. Key Information —D. Risk Factors*” in the Company’s Annual Report, which is incorporated herein by reference. You should also see the risk factors disclosed below under “*Risk Factors*” for risks related to this offering.

- Fusion Fuel has a limited operating history, and accordingly, you have limited financial information on which to evaluate Fusion Fuel and Fusion Fuel’s securities.
- We may need additional capital in the future to meet our financial obligations and to pursue our business objectives. Additional capital may not be available on favorable terms, or at all, which could compromise our ability to meet our financial obligations and grow our business.
- The hydrogen production industry is an emerging market and hydrogen production may not receive widespread market acceptance.
- The economic benefits to our customers of our HEVO based technologies over competitor products depend on the cost of electricity available from alternative sources including local electric utility companies, which cost structure is subject to change.
- We currently face and will continue to face significant competition.
- We depend on a few customers for the majority of our revenues and the loss of any such customers could adversely affect our business, financial condition, results of operations and cash flows.
- Our future success depends in part on our ability to increase our production capacity, and we may not be able to do so in a cost-effective manner and cannot guarantee that our production partners or suppliers ramp up in time.

- The performance of our HEVO based products may be affected by field conditions and other factors outside of our control, which could result in harm to our business and financial results.
- Fusion Fuel's products create a flammable fuel that is an inherently dangerous substance. If our products contain manufacturing defects, our business and financial results could be harmed.
- If our estimates of the useful life for our products are inaccurate or we do not meet service and performance warranties and guaranties, or if we fail to accrue adequate warranty and guaranty reserves, our business and financial results could be harmed.
- The failure of our suppliers to continue to deliver necessary raw materials or other components used in our products in a timely manner or at all, or our inability to obtain substitute sources of these components on a timely basis or on terms acceptable to us, could prevent us from delivering our products within required time frames, impair our ability to manufacture our products, could increase our costs of production and could cause installation delays, cancellations, penalty payments, and damage to our reputation.
- We face supply chain competition, including competition from businesses in other industries, which could result in insufficient inventory and negatively affect our results of operations. Further, we, and some of our suppliers, obtain capital equipment used in our manufacturing process from sole suppliers and, if this equipment is damaged or otherwise unavailable, our ability to deliver our products on time will suffer.
- We may become subject to product liability claims which could harm our financial condition and liquidity if we are not able to successfully defend or insure against such claims.
- Our patent applications may not result in issued patents, and our issued patents may not provide adequate protection, either of which may have a material adverse effect on our ability to prevent others from commercially exploiting products similar to ours. Our failure to protect our intellectual property rights may undermine our competitive position, and litigation to protect our intellectual property rights may be costly. In addition, some of our designs could be contested by other technology developers or patent holders which are unknown to us, potentially resulting in increased costs due to licensing agreements or legal costs associated with contesting any claims.
- Fusion Fuel's ability to generate revenues is substantially dependent upon it entering into both hydrogen purchase and technology sale agreements with third parties.
- If Fusion Fuel does not retain its senior management and key employees, or attract and retain additional talent, Fusion Fuel may not be able to grow or achieve its business objectives.
- Increases in costs, disruption of supply or shortage of raw materials, including membranes, could harm our business.
- If our manufacturing plant in Benavente suffers delays or becomes inoperable, we will be unable to produce our electrolyzers and our business will be harmed.
- Our growth strategy is aggressive and includes operating in more territories.
- We are subject to an increasing sustainability focus.
- Fusion Fuel expects to experience foreign currency gains and losses. Fluctuations in currency exchange rates can adversely affect its profitability.
- A transfer of Class A Ordinary Shares or Warrants, other than one effected by means of the transfer of book-entry interests in the Depository Trust Company ("DTC"), may be subject to Irish stamp duty.

- If the Class A ordinary shares or warrants are not eligible for deposit and clearing within the facilities of DTC, then transactions in the Class A ordinary shares and/or warrants may be disrupted.
- An investment in the Class A ordinary shares may result in uncertain U.S. federal income tax consequences.
- In certain limited circumstances, dividends paid by Fusion Fuel may be subject to Irish dividend withholding tax.
- Dividends received by Irish residents and certain other shareholders may be subject to Irish income tax.
- Class A Ordinary Shares or Warrants received by means of a gift or inheritance could be subject to Irish capital acquisitions tax.
- Attempted takeovers of Fusion Fuel will be subject to the Irish Takeover Rules and will be under the supervisory jurisdiction of the Irish Takeover Panel.
- Investors may face difficulties in protecting their interests, and their ability to protect their rights through the U.S. federal courts may be limited, because Fusion Fuel is formed under Irish law.
- An outbreak of a severe public health crisis, such as the coronavirus (“COVID-19”) pandemic, may adversely affect Fusion Fuel’s business, results of operations, and financial condition.
- As a foreign private issuer, we are exempt from a number of rules under the Exchange Act, we are permitted to file less information with the SEC than domestic companies, and we are permitted to follow home country practice in lieu of the listing requirements of Nasdaq, subject to certain exceptions. Accordingly, there may be less publicly available information concerning us than there is for issuers that are not foreign private issuers.
- Resales of our Class A ordinary shares or warrants, or the perception that such resales might occur, may cause the market price of the Class A ordinary shares or warrants to drop significantly, even if Fusion Fuel’s business is doing well.
- A substantial number of our Class A ordinary shares may be issued upon the exercise of our options and warrants which could adversely affect the price of our Class A ordinary shares.
- Our dual-class voting structure limits your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of Class A ordinary shares may view as beneficial.
- We may issue additional Class A ordinary shares or other equity securities without seeking shareholder approval, which would dilute your ownership interests and may depress the market price of the Class A ordinary shares.
- If our Class A ordinary shares or warrants are de-listed from Nasdaq, we could face significant material adverse consequences.
- The trading price of our Class A ordinary shares or warrants may be volatile, and holders of the Class A ordinary shares or warrants could incur substantial losses.
- An active trading market of our Class A ordinary shares and warrants may not be sustained, and investors may not be able to resell their Class A ordinary shares and warrants at or above the price for which they purchased such securities.
- Because we currently do not have plans to pay cash dividends on the Class A ordinary shares, you may not receive any return on investment unless you sell your Class A ordinary shares for a price greater than that which you paid.

- (1) This amount is an estimate of the number of our Class A Ordinary Shares underlying the Placement Notes and Placement Warrants, with such amount based on the price of our Class A Ordinary Shares as of March 18, 2024 (assuming that (x) \$1.15 million of Placement Notes that may be subscribed for by the selling shareholders under the Securities Subscription Agreement are so subscribed for, and (y) the Placement Notes are convertible at an estimated \$1.60 per share without taking into account any limitations on the conversion of the Placement Notes set forth therein, as described below), and (ii) the number of Placement Warrant Shares issuable upon exercise of the Placement Warrants (assuming that (a) the \$345,000 of Placement Warrants issuable to the selling shareholders under the Securities Subscription Agreement in connection with the first tranche are so issued and (b) the Placement Warrants are exercised at an estimated \$2.0436 per share without taking into account any limitations on the exercise of the Placement Warrants set forth therein, as described below), all subject to adjustment as described below. The actual number of shares issued upon conversion of the Placement Notes and exercise of the Placement Warrants may be more or less than this amount.
- (2) Based on our outstanding Class A Ordinary Shares as of March 18, 2024.
- (3) This amount does not include an aggregate of 10,526,816 Class A ordinary shares issuable upon exercise of our issued and outstanding options and warrants outstanding as of March 18, 2024. This amount also does not include 1,653,842 Class A ordinary shares available for issuance, and not subject to outstanding awards, under our 2021 Equity Incentive Plan.
- (4) This amount includes the estimated maximum of 887,979 of our Class A Ordinary Shares underlying the Placement Notes and Placement Warrants, as described in note 1 above.

RISK FACTORS

Any investment in our shares involves a high degree of risk. Potential investors are urged to read and consider the risks and uncertainties relating to an investment in our company set forth below and those set forth in or incorporated by reference into this prospectus, including those set forth in our most recent annual report on Form 20-F. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business and results of operations. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price for our Class A ordinary shares could decline and you may lose all or part of your investment.

Risks Related to the Offering

A limited market may exist for our Class A Ordinary Shares which could lead to price volatility.

Our Class A Ordinary Shares trade on the Nasdaq Global Market. There can be no assurance, however, that the trading market for our Class A Ordinary Shares will be robust. A limited trading market for our Class A Ordinary Shares may cause fluctuations in the market value of our Class A Ordinary Shares to be exaggerated, leading to price volatility in excess of that which would occur in a more active trading market for our Class A Ordinary Shares.

There can be no assurance that our Class A Ordinary Shares will continue to trade on Nasdaq or another national securities exchange.

Our Class A Ordinary Shares and warrants are currently listed on Nasdaq. There can be no assurance, however, that we will be able to maintain compliance with the Nasdaq listing standards in the future. If we fail to maintain compliance with all of the Nasdaq listing standards, our Class A Ordinary Shares and warrants may no longer be listed on the Nasdaq Global Market or another national securities exchange and the liquidity and market price of our Class A Ordinary Shares may be adversely affected.

A substantial number of Class A Ordinary Shares may be issued pursuant to the terms of the Securities Subscription Agreement, Placement Notes and Placement Warrants, which could cause the price of our Class A Ordinary Shares to decline.

Assuming all \$20 million of Placement Notes are issued pursuant to the Securities Subscription Agreement, the Placement Notes would be convertible by the holders into an aggregate of 100,000,000 Class A Ordinary Shares (assuming a minimum conversion price of \$0.20). Additionally, assuming all \$20 million of Placement Notes are issued pursuant to the Securities Subscription Agreement, we would issue to the subscribers Placement Warrants to subscribe for an aggregate of 2,935,995 Class A Ordinary Shares (assuming a minimum exercise price of \$0.065). However, the Placement Notes and Placement Warrants contain adjustment provisions that could reduce the conversion and exercise prices of each and if that occurred, the maximum number of Class A Ordinary Shares that could be issued pursuant to the Placement Notes and Placement Warrants would be 400,000,000 Class A Ordinary Shares and 92,307,692 Class A Ordinary Shares, respectively. If this occurred, the Class A Ordinary Shares issued upon conversion of the Placement Notes and upon exercise of the Placement Warrants would represent approximately 97% of our outstanding Class A Ordinary Shares as of March 18, 2024 (without taking into account the limitations on conversion and exercise of the Placement Notes and Placement Warrants as described elsewhere in this prospectus).

The actual number of Class A Ordinary Shares issued will be determined based on the then current market price (but not more than the fixed conversion price or less than the minimum conversion price with respect to the shares issuable in respect of Placement Notes, or more than the fixed exercise price or less than the minimum exercise price with respect to the shares issuable in respect of the Placement Warrants, as described in section titled “Private Placement of Notes and Warrants” below). We cannot predict the market price of our Class A Ordinary Shares at any future date, and therefore, we are unable to accurately forecast or predict the total number of shares that ultimately may be issued under the Placement Notes and Placement Warrants. The number of Class A Ordinary Shares to be issued also may be substantially greater if we voluntarily reduce the conversion price of the Placement Notes as permitted under such notes.

The Placement Notes likely will be converted, and the Placement Warrants likely exercised, only at times when it is economically beneficially for the holders to do so. The issuance of these shares will dilute our other equity holders, which could cause the price of our Class A Ordinary Shares to decline.

Sales of substantial amounts of our Class A Ordinary Shares by the selling shareholders, or the perception that these sales could occur, could adversely affect the price of our Class A Ordinary Shares.

The sale by the selling shareholders of a significant number of Class A Ordinary Shares could have a material adverse effect on the market price of our Class A Ordinary Shares. In addition, the perception in the public markets that the selling shareholders may sell all or a portion of their shares as a result of the registration of such shares for resale pursuant to this prospectus could also in and of itself have a material adverse effect on the market price of our Class A Ordinary Shares. We cannot predict the effect, if any, that market sales of those Class A Ordinary Shares or the availability of those Class A Ordinary Shares for sale will have on the market price of our Class A Ordinary Shares.

Our share price may be volatile, and purchasers of our securities could incur substantial losses.

Our share price is likely to be volatile. The stock market in general, and the market for green energy companies in particular, have experienced extreme volatility that has often been unrelated to the operating performance of particular companies. As a result of this volatility, investors may not be able to sell their Class A Ordinary Shares at or above the price at which they purchase it in this offering. The market price for our Class A Ordinary Shares may be influenced by many broad market and industry factors. These broad market and industry factors may seriously harm the market price of our Class A Ordinary Shares, regardless of our operating performance. In addition, the market price for our Class A Ordinary Shares may be subject to price movements that may not comport with macro, industry or company-specific fundamentals, including, without limitation, the sentiment of retail investors (including as may be expressed on financial trading and other social media sites and online forums), the direct access by retail investors to broadly available trading platforms, the amount and status of short interest in our securities, access to margin debt, trading in options and other derivatives on our Class A Ordinary Shares and any related hedging and other trading factors. In the past, following periods of volatility in the market, securities class-action litigation has often been instituted against companies. Such litigation, if instituted against us, could result in substantial costs and diversion of management's attention and resources, which could materially and adversely affect our business, financial condition, results of operations and growth prospects.

We do not intend to pay any dividends on our Class A Ordinary Shares at this time.

We have not paid any cash dividends on our Class A Ordinary Shares to date. The payment of cash dividends on our Class A Ordinary Shares in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition and will be within the discretion of our board of directors. Our outstanding indebtedness may also limit our ability to pay dividends on our Class A Ordinary Shares. It is the present intention of our Board of Directors to retain all earnings, if any, for use in our business operations and, accordingly, our Board of Directors does not anticipate declaring any dividends on our Class A Ordinary Shares in the foreseeable future. As a result, any gain you will realize on our Class A Ordinary Shares will result solely from any appreciation of such shares.

We may need substantial additional funding and may be unable to raise capital when needed, which could force us to delay, reduce, eliminate or abandon growth initiatives or product development programs.

We intend to continue to make investments to support our business growth, and we may require additional funds to:

- continue our research and development;
- pursue additional regulatory clearances and approvals for our products and services;
- protect our intellectual property rights or defend, in litigation or otherwise, any claims that we infringe third-party patents or other intellectual property rights;

- fund our operations;
- manufacture and distribute our products; and
- promote market acceptance of our products.

Our need for additional funds may be affected by:

- the cost and timing of expanding our sales, marketing and distribution capabilities;
- the effect of competing technological and market developments; and
- the extent to which we acquire or invest in businesses, products and technologies, although we currently have no commitments or agreements relating to any of these types of transactions.

Debt or preferred share financing, if available, may involve covenants restricting our operations or our ability to incur additional debt or issue additional preferred shares, and may contain other terms that are not favorable to us or our shareholders. Additional equity financing may result in substantial dilution to our existing shareholders. If we do not have, or are not able to obtain, sufficient funds, we may have to delay product development initiatives or curtail operations. We also may have to reduce manufacturing, distribution, marketing, customer support or other resources devoted to our products.

The requirement that we repay the Placement Notes and interest thereon in cash upon maturity, and the restrictive covenants contained in the Placement Notes, could adversely affect our business plan, liquidity, financial condition, and results of operations.

To the extent the Placement Notes are not converted into Placement Note Shares at the option of the holder upon maturity of the Placement Notes, we will be required to repay the Placement Notes and interest thereon in cash. We may also be required to repay the Placement Notes and interest thereon in cash in certain other circumstances. For example, we will be required to repay the outstanding principal balance and accrued but unpaid interest, along with a premium, upon the occurrence of a Change of Control (as defined in the Placement Notes). In addition, the Placement Notes contain restrictive covenants, including financial covenants. These obligations and covenants could have important consequences on our business. In particular, they could:

- require us to dedicate a substantial portion of our cash flow from operations to payments on the Placement Notes;
- limit, among other things, our ability to borrow additional funds and otherwise raise additional capital, and our ability to conduct acquisitions, joint ventures or similar arrangements;
- limit our flexibility in planning for, or reacting to, changes in our businesses and the industries in which we operate;
- increase our vulnerability to general adverse economic and industry conditions; and
- place us at a competitive disadvantage compared to our competitors that have lower fixed costs.

The debt service requirements of our other outstanding indebtedness as well as any other indebtedness or preferred shares we incur or issue in the future, our ability to so issue also being limited by the covenants of the Placement Notes, and the restrictive covenants contained in the governing documents for such indebtedness, could intensify these risks.

In the event we are required to repay the Placement Notes in cash, we may seek to refinance the remaining balance, by either refinancing with the holders of the Placement Notes, by raising sufficient funds through a sale of equity or debt securities or by obtaining a credit facility. No assurances can be given that we will be successful in making the required payments under the Placement Notes, or in refinancing our obligations on favorable terms, or at all, particularly as our capacity to obtain such financing is limited by restrictions imposed on us by the covenants of the Placement Notes. Should we determine to refinance, it could be dilutive to shareholders.

If we are unable to make the required cash payments when due, there could be a default under the Placement Notes. In such event, or if a default otherwise occurs under the Placement Notes, the holders of the Placement Notes could require us to immediately repay the outstanding principal and interest on the Placement Notes in cash at a premium. Furthermore, if we are unable to make the required cash payment when due, we will incur a “late charge” in an amount equal to interest on the overdue amount at the rate of eighteen percent (18%) per annum from the date such amount was due until the same is paid in full.

In addition, any statements that refer to projections, forecasts, or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “possible,” “potential,” “predicts,” “project,” “should,” “would,” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements contained in this prospectus and in the documents incorporated by reference in this prospectus are based on current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments will be those that have been anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. - our goals and growth strategies;
- our future prospects and market acceptance of products and services;

- changes in our revenue, costs or expenditures;
- our expectations regarding the demand for, and market acceptance of, our products and services;
- general economic and business conditions in the markets in which we operate;
- growth and competition in the markets in which we operate;
- relevant government policies and regulations relating to our business and industry;
- our ability to obtain additional financing when and if needed;
- the length and severity of a public health crisis, such as the COVID-19 pandemic, including its impact on our business and on demand, project development, construction, operations, and maintenance, finance, and our global supply chains, actions that may be taken by governmental authorities to contain the outbreak or treat its impacts, and the ability of our customers, suppliers, vendors, and other counterparties to fulfill their contractual obligations to us; and
- the assumptions underlying or related to any of the foregoing.

Should one or more of these risks or uncertainties materialize, or should any of our expectations, assumptions or beliefs otherwise prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as may be required under applicable securities laws.

PRIVATE PLACEMENT OF NOTES AND WARRANTS

Summary

On November 21, 2023, we entered into the Securities Subscription Agreement for the Private Placement with the selling shareholders. Pursuant to the Securities Subscription Agreement, the selling shareholders committed to subscribe for Placement Notes in the aggregate principal amount of up to \$20 million, in tranches based on certain requirements set forth in the Securities Subscription Agreement. The initial tranche of the Private Placement to be closed upon in the initial closing is \$1.15 million. A condition to the closing of the initial tranche of Placement Notes is the filing and effectiveness of the registration statement of which this prospectus forms a part.

Securities Subscription Agreement

The Securities Subscription Agreement contains certain representations and warranties, covenants and indemnities customary for similar transactions. Under the Securities Subscription Agreement, we also agreed to the following additional covenants:

- So long as any of the selling shareholders own any Placement Notes or Placement Warrants, we will not effect or enter an agreement to effect any variable rate transaction.
- So long as any of the selling shareholders own any Placement Notes or Placement Warrants, we will not issue any equity security or equity-linked security, except (i) Class A Ordinary Shares or standard options to purchase Class A Ordinary Shares to directors, officers or employees of the Company in their capacity as such pursuant to an approved equity incentive plan not in excess of 5% of the outstanding shares as of the Subscription Date (as defined in the Placement Notes); (ii) Class A Ordinary Shares issued upon the conversion or exercise of convertible securities (other than those that are covered by clause (i) above) issued prior to the date of the Securities Subscription Agreement, provided that the conversion, exercise or other method of issuance (as the case may be) of any such convertible security is made solely pursuant to the conversion, exercise or other method of issuance (as the case may be) provisions of such convertible security in effect on the date immediately prior to the date of the Securities Subscription Agreement; (iii) the Placement Note Shares; (iv) the Placement Warrant Shares; and (v) issuances of Ordinary Shares in strategic transactions by the Company provided that (x) such issuances, in the aggregate, do not exceed ten percent (10%) of the number of the Company's Ordinary Shares then issued and outstanding, (y) such Ordinary Shares are subject to contractual six (6) month lockup restrictions reasonably satisfactory to the selling shareholders and (z) such issuances are limited to transactions with customers, suppliers or peers operating within the Company's industry.

In addition, we granted the investors participation rights in future equity and equity-linked offerings of securities during the six (6) months after the date of the Securities Subscription Agreement in an amount of up to 100% of the securities being sold in such offerings.

Placement Notes

General

The Placement Notes were issued with an original issue discount of 2%. On the second anniversary of the date of issuance (the "Maturity Date"), the Company shall pay to the holder an amount in cash representing 100% of all outstanding principal and accrued and unpaid interest. The Placement Notes are convertible into Placement Note Shares at any time at the option of the holder, as described further below.

Interest

The Placement Notes accrue interest at a rate of 4.0% per annum over the Secured Overnight Financing Rate (SOFR). After the occurrence and during the continuance of an Event of Default (as defined in the Placement Notes), the Placement Notes will accrue interest at the rate of 18.0% per annum. See "*Events of Default*" below.

Conversion

Holders of the Placement Notes are entitled at any time and from time to time to convert all or any portion of the outstanding and unpaid principal, interest and late fees if any (collectively, the “Conversion Amount”), into validly issued, fully paid and non-assessable Placement Note Shares in accordance with the Conversion Rate (as defined below). The Company shall not issue any fraction of a Placement Note Share upon any conversion. If the issuance would result in the issuance of a fraction of a Placement Note Share, the Company shall round such fraction of a Placement Note Share up to the nearest whole share.

The number of Placement Note Shares issuable upon conversion of any Placement Note (the “Conversion Rate”) is determined by dividing (x) the Conversion Amount by (y) the higher of (i) the Minimum Conversion Price (ii) 90% of the VWAP of the Class A Ordinary Shares on a day selected by the Investor out of the Five (5) Trading Days immediately prior to the date of conversion. The “Minimum Conversion Price” shall be set at \$0.20 provided that if at any time while the Placement Note is outstanding, the three (3) day VWAP of the Class A Ordinary Shares is less than \$0.20, then the Minimum Conversion Price shall thereafter equal \$0.05.

Trading Price Redemption

If, at any time prior to the Maturity Date, the VWAP of the Company’s Class A Ordinary Shares for any ten (10) trading day period is less than the Minimum Conversion Price, then the holder shall have the right, but not the obligation, to require us to redeem the Placement Note in full at a price equal to 108% of all outstanding principal and accrued and unpaid interest and accrued and unpaid late charges, if any, on such principal and interest.

Conversion Limitation

Holders of a Placement Note shall not have the right to convert any portion of the Placement Note pursuant to the extent that after giving effect to such conversion, the holder together with the other Attribution Parties (as defined below) collectively would beneficially own in excess of 9.99% (the “Maximum Percentage”) of the Class A Ordinary Share outstanding immediately after giving effect to such conversion.

“Attribution Parties” as used above means, collectively, the following persons and entities: (i) any investment vehicle, including, any funds, feeder funds or managed accounts, currently, or from time to time after the issuance date of the Placement Notes, directly or indirectly managed or advised by the holder’s investment manager or any of its affiliates or principals, (ii) any direct or indirect affiliates of the holder or any of the foregoing, (iii) any person acting or who could be deemed to be acting as a group together with the holder or any of the foregoing and (iv) any other persons whose beneficial ownership of the Class A Ordinary Shares would or could be aggregated with the holder’s and the other Attribution Parties for purposes of Section 13(d) of the 1934 Act.

Events of Default

The Placement Notes contain certain customary Events of Default, including, among other things, the failure of the registration statement to be filed, become or remain effective in accordance with certain deadlines set forth in the Registration Rights Agreement, and breach of the financial covenants described in “*Covenants*” below.

In connection with an Event of Default, a noteholder may require us to redeem in cash any or all of a Placement Note (“Event of Default Redemption”). The redemption price (except in the case of certain Events of Default relating to bankruptcy) will equal the greater of (i) 125% of the Conversion Amount being redeemed and (ii) the Conversion Rate with respect to the Conversion Amount in effect at such time as the holder delivers notice of Event of Default Redemption multiplied by the greatest closing sale price of the Class A Ordinary Shares on any trading day during the period commencing on the date immediately preceding such Event of Default and ending on the date the Company makes the entire redemption payment.

Change of Control

In connection with a Change of Control (as defined in the Placement Notes), a holder may require us to redeem all or any portion of each Placement Note (“Change of Control Redemption”). The redemption price per share will equal the greatest of (i) 125% of the Conversion Amount being redeemed, (ii) the product of 125% multiplied by the product of (A) the Conversion Amount being redeemed multiplied by (B) the quotient determined by dividing (I) the greatest closing sale price of the Class A Ordinary Shares during the period beginning on the date immediately preceding the earlier to occur of (1) the consummation of the applicable Change of Control and (2) the public announcement of such Change of Control, and ending on the date the holder delivers notice of the Change of Control Redemption by (II) the Conversion Price then in effect and (iii) the product of 125% multiplied by the product of (A) the Conversion Amount being redeemed multiplied by (B) the quotient of (I) the aggregate cash consideration and the aggregate cash value of any non-cash consideration per Class A Ordinary Share to be paid to the holders of the Class A Ordinary Shares upon consummation of such Change of Control (any such non-cash consideration constituting publicly-traded securities shall be valued at the highest of the closing sale price of such securities as of the trading day immediately prior to the consummation of such Change of Control, the closing sale price of such securities on the trading day immediately following the public announcement of such proposed Change of Control and the closing sale price of such securities on the trading day immediately prior to the public announcement of such proposed Change of Control) divided by (II) the Conversion Price then in effect.

Holder Rights upon Issuance of Purchase Rights, Corporate Events, and Issuance of other Securities

If at any time we grant, issue or sell any options, convertible securities or rights to purchase stock, warrants, securities or other property pro rata to all or substantially all of the record holders Class A Ordinary Shares (the “Purchase Rights”), then the holder of the Placement Note will be entitled to acquire, upon the terms applicable to such Purchase Rights, the aggregate Purchase Rights which the holder could have acquired if the holder had held the number of Class A Ordinary Shares acquirable upon complete conversion of the Placement Note (without taking into account any limitations or restrictions on the convertibility of the Placement Note and assuming for such purpose that the Note was converted at the then effective Minimum Conversion Price as of the applicable record date) immediately prior to the date on which a record is taken for the grant, issuance or sale of such Purchase Rights.

Prior to the consummation of any Fundamental Transaction (as defined in the Placement Notes) pursuant to which holders of Class A Ordinary Shares are entitled to receive securities or other assets with respect to or in exchange for Class A Ordinary Shares (a “Corporate Event”), a holder of a Placement Note will thereafter have the right to receive upon a conversion of the Placement Note, such securities or other assets to which the holder would have been entitled with respect to such Class A Ordinary Shares had such Class A Ordinary Shares been held by the holder upon the consummation of such Corporate Event (without taking into account any limitations or restrictions on the convertibility of the Placement Note).

Subject to certain exceptions of and whenever we issue or sell, or are deemed to have issued or sold, any Class A Ordinary Shares (including the issuance or sale of Class A Ordinary Shares owned or held by or for the account of the Company issued or sold or deemed to have been issued or sold) for a consideration per share (the “New Issuance Price”) less than a price equal to the Conversion Price in effect immediately prior to such issuance or sale or deemed issuance or sale (the foregoing a “Dilutive Issuance”), then, immediately after such Dilutive Issuance, the Conversion Price then in effect shall be reduced to an amount equal to the New Issuance Price.

Covenants

We will be subject to certain customary affirmative and negative covenants regarding the incurrence of indebtedness, the existence of liens, the repayment of indebtedness, the payment of cash in respect of dividends, distributions or redemptions, and the transfer of assets, among other matters.

Placement Warrants

General

Each Placement Warrant enables its holder to subscribe for, at any time after the issuance date thereof and from time to time, at the Exercise Price (as defined below) then in effect, fully paid and non-assessable Class A Ordinary Shares (the “Placement Warrant Shares”), as described further below.

Exercisability

The exercise price per share of the Placement Warrants (the “Exercise Price”) is 130% of the VWAP of the Class A Ordinary Shares during the five (5) trading days immediately preceding the issuance of such Placement Warrant, subject to adjustment as described further below.

Exercise Period

Placement Warrants are exercisable at any time and from time to time until 11:59 p.m. on the date that is the second (2nd) anniversary of the issuance date of the Placement Warrant or, if such date falls on a day other than a trading day, the next date that is not a trading day.

Cashless Exercise

If at any time during the term of the Placement Warrant, a registration statement covering the resale of the Placement Warrant Shares issuable upon exercise of the Placement Warrants is not effective, the Holder may, in its sole discretion, exercise the Placement Warrant in whole or in part and, in lieu of making the cash payment otherwise contemplated, elect instead to receive upon such exercise the “Net Number” of Placement Warrant Shares determined according to the following formula:

$$\text{Net Number} = \frac{(A \times B) - (A \times C)}{D}$$

For purposes of the foregoing formula:

A = the total number of shares with respect to which the Placement Warrant is then being exercised.

B = the VWAP of the Class A Ordinary Shares at the close of business as of the trading day immediately prior to the date of the delivery of the applicable Exercise Notice.

C = the Exercise Price then in effect for the applicable Placement Warrant Shares at the time of such exercise.

D = the VWAP of the Class A Ordinary Shares at the close of business on the date of the delivery of the applicable Exercise Notice.

No Rights as a Shareholder

Except as described above, holders of Placement Warrants do not have the rights or privileges of holders of Class A Ordinary Shares or any voting rights until they exercise their Placement Warrants and receive Placement Warrant Shares. After the issuance of Placement Warrant Shares upon exercise of the Placement Warrants, each holder will be entitled to one vote for each Placement Warrant Share held of record on all matters to be voted on by holders of Class A Ordinary Shares.

No Fractional Shares

No fractional Placement Warrant Shares (nor, for avoidance of doubt, any other Class A Ordinary Shares or any other security) are to be issued upon the exercise of a Placement Warrant, but rather the number of Placement Warrant Shares to be issued shall be rounded up to the nearest whole number.

Exercise Limitation

The ability for a holder of a Placement Warrant to be exercised is subject to the same limitation and exchange cap as the ability for a holder of a Placement Note to be exercised. A holder shall not have the right to exercise any portion of the Placement Warrant to the extent that after giving effect to such exercise, the holder together with the other Attribution Parties collectively would beneficially own in excess of the Maximum Percentage of the Class A Ordinary Shares outstanding immediately after giving effect to such conversion.

Adjustment of Exercise Price and Number of Placement Warrant Shares

The Exercise Price and the Number of Placement Warrant Shares the Placement Warrants are exercisable to subscribe for are subject to customary adjustment terms, including that in the event we (i) pay a stock dividend on our then-outstanding Class A Ordinary Shares or otherwise make a distribution on any class of capital stock that is payable in Class A Ordinary Shares, (ii) subdivide (by any stock split, stock dividend, recapitalization or otherwise) our then-outstanding Class A Ordinary Shares into a larger number of shares or (iii) combine (by combination, reverse stock split or otherwise) our then-outstanding Class A Ordinary Shares into a smaller number of shares, then in each such case the Exercise Price shall be multiplied by a fraction of which the numerator shall be the number of Class A Ordinary Shares outstanding immediately before such event and of which the denominator shall be the number of Class A Ordinary Shares outstanding immediately after such event.

The Exercise Price of the Placement Warrants is subject to adjustment in accordance with the adjustment of the Conversion Price of the Placement Notes as described above. If and whenever we issue or sell, or are deemed to have issued or sold, any Class A Ordinary Shares (including the issuance or sale of Class A Ordinary Shares owned or held by or for the account of the Company, but excluding any Excluded Securities issued or sold or deemed to have been issued or sold) in a Dilutive Issuance, then immediately after such Dilutive Issuance, the Exercise Price then in effect shall be reduced to an amount equal to the New Issuance Price. Simultaneously with any adjustment to the Exercise Price, the number of Placement Warrant Shares that may be issuable upon exercise of the Placement Warrants shall be increased or decreased proportionately, so that after such adjustment the aggregate Exercise Price payable thereunder for the adjusted number of Placement Warrant Shares shall be the same as the aggregate Exercise Price in effect immediately prior to such adjustment (without regard to any limitations on exercise contained therein).

Fundamental Transaction Redemption

In connection with our consummation of a Fundamental Transaction (as defined in the Placement Warrant), the Holder may require us (or a successor entity, as the case may be) to purchase the Placement Warrant from the Holder by paying to the Holder cash in an amount equal to the Black Scholes Value (as defined in the Placement Warrant).

Registration Rights

In connection with the Private Placement, we entered into the Registration Rights Agreement with the selling shareholders. Pursuant to the Registration Rights Agreement, we have granted certain registration rights to the investors. The Registration Rights Agreement requires us to have a registration statement covering the resale of the Class A Ordinary Shares underlying the Placement Notes (the "Required Registration Statement") declared effective as a condition to any issuance of Placement Notes. The Registration Rights Agreement also grants the investors customary "piggyback" registration rights. We will be required to pay certain Registration Delay Payments (as defined in the Registration Rights Agreement) to the selling shareholders upon the occurrence of certain events as detailed in the Registration Rights Agreement.

Forms of the Securities Subscription Agreement, the Placement Notes, the Placement Warrants and the Registration Rights Agreement are incorporated as exhibits to the Registration Statement of which this prospectus forms a part and are incorporated herein by reference. The summary of such agreements contained in this prospectus is qualified in its entirety by reference to the text of such agreements. We urge you to read such agreements in full.

USE OF PROCEEDS

All the Class A ordinary shares sold under this prospectus will be sold or otherwise disposed of for the account of the selling shareholders, or their pledgees, assignees or successors-in-interest. We will not receive any of the proceeds from the sale by the selling shareholders of the Class A Ordinary Shares, although we may receive up to a maximum of \$345,000 from the exercise of warrants exercised by the selling shareholders assuming such warrants are exercised for cash (assuming the \$1.15 million of Placement Notes are issued in the initial tranche). We will bear all fees and expenses incident to our obligation to register the Class A Ordinary Shares. The selling shareholders will bear all commissions and discounts, if any, attributable to their sales of the Class A Ordinary Shares.

SELLING SHAREHOLDERS

The Class A Ordinary Shares being offered by the selling shareholders are those issuable to the selling shareholders upon conversion of the Placement Notes and exercise of the Placement Warrants. For additional information regarding the issuance of the Placement Notes and the Placement Warrants, see “*Private Placement of Notes and Warrants*” above. We are registering the Class A Ordinary Shares in order to permit the selling shareholders to offer the shares for resale from time to time. Except for the ownership of the Placement Notes and the Placement Warrants issued pursuant to the Securities Subscription Agreement, the selling shareholders have not had any material relationship with us within the past three years.

The table below lists the selling shareholders and other information regarding the beneficial ownership (as determined under Section 13(d) of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder) of the ordinary shares held by each of the selling shareholders. The second column lists the number of Class A Ordinary Shares beneficially owned by the selling shareholders, based on their respective ownership of Class A Ordinary Shares, Placement Notes and Placement Warrants, as of March 21, 2024, assuming the sale of the first tranche of Placement Notes and Placement Warrants and the subsequent conversion of the Placement Notes (at an estimated \$1.60 per share) and exercise of the Placement Warrants (at an estimated \$2.0436 per share) held by each such selling shareholder on that date without taking account of any limitations on conversion and exercise set forth therein. The number of shares that will actually be issued may be more or less than the number of shares being offered by this prospectus depending on the price of our securities.

The third column lists the Class A Ordinary Shares being offered by this prospectus by the selling shareholders and does not take in account any limitations on (i) conversion of the Placement Notes set forth therein or (ii) exercise of the Placement Warrants set forth therein.

Under the terms of the Placement Notes and the Placement Warrants, a selling shareholder may not convert the Placement Notes or exercise the Placement Warrants to the extent (but only to the extent) such selling shareholder or any of its affiliates would beneficially own a number of ordinary shares which would exceed 9.99% of the outstanding shares of the Company. The number of shares in the second column does not reflect these limitations. The selling shareholders may sell all, some or none of their shares in this offering. See “*Plan of Distribution*.”

PLAN OF DISTRIBUTION

We are registering the Class A Ordinary Shares issuable upon conversion of the Placement Notes and exercise of the Placement Warrants to permit the resale of these Class A Ordinary Shares by the holders of the Placement Notes and Placement Warrants from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling shareholders of the Class A Ordinary Shares, although we may receive up to a maximum of \$345,000 from the exercise of warrants exercised by the selling shareholders assuming such warrants are exercised for cash (assuming the \$1.15 million of Placement Notes are issued in the initial tranche). We will bear all fees and expenses incident to our obligation to register the Class A Ordinary Shares.

The selling shareholders may sell all or a portion of the Class A Ordinary Shares held by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the Class A Ordinary Shares are sold through underwriters or broker-dealers, the selling shareholders will be responsible for underwriting discounts or commissions or agent's commissions. The Class A Ordinary Shares may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions, pursuant to one or more of the following methods:

- on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- in the over-the-counter market;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- through the writing or settlement of options, whether such options are listed on an options exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales made after the date the Registration Statement is declared effective by the SEC;
- broker-dealers may agree with a selling security holder to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

The selling shareholders may also sell Class A Ordinary Shares under Rule 144 promulgated under the Securities Act of 1933, as amended, if available, rather than under this prospectus. In addition, the selling shareholders may transfer the Class A Ordinary Shares by other means not described in this prospectus. If the selling shareholders effect such transactions by selling Class A Ordinary Shares to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling shareholders or commissions from purchasers of the Class A Ordinary Shares for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the Class A Ordinary Shares or otherwise, the selling shareholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the Class A Ordinary Shares in the course of hedging in positions they assume. The selling shareholders may also sell Class A Ordinary Shares short and deliver Class A Ordinary Shares covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling shareholders may also loan or pledge Class A Ordinary Shares to broker-dealers that in turn may sell such shares.

The selling shareholders may pledge or grant a security interest in some or all of the Placement Notes, Placement Warrants or Class A Ordinary Shares owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the Class A Ordinary Shares from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending, if necessary, the list of selling shareholders to include the pledgee, transferee or other successors in interest as selling shareholders under this prospectus. The selling shareholders also may transfer and donate the Class A Ordinary Shares in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

Under the securities laws of some states, the Class A Ordinary Shares may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the Class A Ordinary Shares may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling shareholder will sell any or all of the Class A Ordinary Shares registered pursuant to the registration statement, of which this prospectus forms a part.

The selling shareholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the Class A Ordinary Shares by the selling shareholders and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the Class A Ordinary Shares to engage in market-making activities with respect to the Class A Ordinary Shares. All of the foregoing may affect the marketability of the Class A Ordinary Shares and the ability of any person or entity to engage in market-making activities with respect to the Class A Ordinary Shares.

We will pay, or procure the payment of, all expenses of the registration of the Class A Ordinary Shares pursuant to the registration rights agreement including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state securities or “blue sky” laws; provided, however, a selling shareholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling shareholders against liabilities, including some liabilities under the Securities Act in accordance with the registration rights agreements or the selling shareholders will be entitled to contribution. We may be indemnified by the selling shareholders against civil liabilities, including liabilities under the Securities Act that may arise from any written information furnished to us by the selling shareholder specifically for use in this prospectus, in accordance with the related registration rights agreements or we may be entitled to contribution.

Once sold under the registration statement, of which this prospectus forms a part, the Class A Ordinary Shares will be freely tradable in the hands of persons other than our affiliates.

EXPERTS

The consolidated financial statements of Fusion Fuel Green plc as of December 31, 2022 and 2021, and for each of the years in the three-year period ended December 31, 2022, have been incorporated by reference herein and in the registration statement in reliance upon the report of KPMG, independent registered public accounting firm, incorporated by reference herein, and upon the authority of said firm as experts in accounting and auditing.

The audit report covering the December 31, 2022 consolidated financial statements contains an explanatory paragraph that states that the Company's recurring losses and negative cash flows from operations raise substantial doubt about the entity's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of that uncertainty.

SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES

Our agent for service of process in the United States is Graubard Miller, our U.S. counsel, located at The Chrysler Building, 405 Lexington Avenue, New York, New York 10174. We are an Irish company and our executive offices are located outside of the United States. Certain of our directors and officers and some of the experts in this prospectus reside outside the United States. In addition, a substantial portion of our assets and the assets of our directors, officers and experts are located outside of the United States. As a result, you may have difficulty serving legal process within the United States upon any of these persons. You may also have difficulty enforcing, both in and outside of the United States, judgments you may obtain in U.S. courts against us or these persons in any action, including actions based upon the civil liability provisions of U.S. federal or state securities laws. Furthermore, there is substantial doubt that the courts of Ireland would enter judgments in original actions brought in those courts predicated on U.S. federal or state securities laws.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form F-3 with respect to the securities offered hereby. This prospectus, which forms a part of the registration statement, does not contain all of the information set forth in the registration statement and the exhibits thereto. The registration statement includes and incorporates by reference additional information and exhibits. Statements made in this prospectus concerning the contents of any contract, agreement or other document filed as an exhibit to the registration statement are summaries of the material terms of such contracts, agreements or documents, but do not repeat all of their terms. Reference is made to each such exhibit for a more complete description of the matters involved and such statements shall be deemed qualified in their entirety by such reference. The registration statement and the exhibits and schedules thereto filed with the SEC are available without charge on the website maintained by the SEC at <http://www.sec.gov> that contains periodic reports and other information regarding registrants that file electronically with the SEC.

We are subject to the information and periodic reporting requirements of the Exchange Act and we file periodic reports and other information with the SEC. These periodic reports and other information are available on the website of the SEC referred to above. As a "foreign private issuer," we are exempt from the rules under the Exchange Act prescribing the furnishing and content of proxy statements to shareholders. Those proxy statements are not expected to conform to Schedule 14A of the proxy rules promulgated under the Exchange Act. In addition, as a "foreign private issuer," we are exempt from the rules under the Exchange Act relating to short swing profit reporting and liability.

PART II

INFORMATION NOT REQUIRED IN THE PROSPECTUS

Item 8. Indemnification of Directors and Officers.

Pursuant to the Fusion Fuel's M&A, subject to the provisions of and so far as may be permitted by the Companies Act, every person who is or was a director, officer or employee of Fusion Fuel, and each person who is or was serving at the request of Fusion Fuel as a director, officer or employee of another company, or of a partnership, joint venture, trust or other enterprise, shall be entitled to be indemnified by Fusion Fuel against all costs, charges, losses, expenses and liabilities incurred by him or her in the execution and discharge of his or her duties or in relation thereto, including any liability incurred by him or her in defending any proceedings, civil or criminal, which relate to anything done or omitted or alleged to have been done or omitted by him or her as a director, officer or employee of Fusion Fuel or such other company, partnership, joint venture, trust or other enterprise, and in which judgment is given in his or her favor (or the proceedings are otherwise disposed of without any finding or admission of any material breach of duty on his or her part) or in which he or she is acquitted or in connection with any application under any statute for relief from liability in respect of any such act or omission in which relief is granted to him or her by the court.

The Companies Act prescribes that such an indemnity only permits a company to indemnify any officer against any liability incurred by him or her (i) in defending proceedings where judgment is given in any civil or criminal action in his or her favour or in which he or she is acquitted, (ii) in connection with any proceedings for negligence, default, breach of duty or breach of trust against the officer where an Irish court grants relief because it appears to the court that the officer in question is or may be liable in respect of the negligence, default, breach of duty or breach of trust but that he or she acted honestly and reasonably and should therefore be granted relief from such liability or (iii) in connection with an application made by the officer to be relieved of liability in respect of a claim that the officer apprehends will be made against him or her in respect of any negligence, default, breach of duty or breach of trust, if such relief is granted to the officer by the court.

Fusion Fuel is permitted under its M&A and the Companies Act to purchase directors' and officers' liability insurance, as well as other types of insurance, for its directors, officers and employees.

Fusion Fuel has entered into deeds of indemnity with its directors and executive officers. Given the director indemnification limitations arising under Irish law, Fusion Fuel's subsidiary, Fusion Fuel Portugal, S.A. ("Fusion Fuel Portugal"), has also entered into such deeds of indemnity. These agreements, among other things, require Fusion Fuel and Fusion Fuel Portugal to jointly and severally indemnify Fusion Fuel's directors and executive officers as well as Fusion Fuel Portugal's directors and executive officers for certain expenses, including attorneys' fees, judgments, fines and settlement amounts incurred by any such director or executive officer in any action or proceeding arising out of their services as one of Fusion Fuel's or Fusion Fuel Portugal's directors or executive officers or as a director or executive officer of any other company or enterprise to which the person provides services at Fusion Fuel's or Fusion Fuel Portugal's request. We believe that these indemnification agreements are necessary to attract and retain qualified persons as directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling Fusion Fuel pursuant to the foregoing provisions, Fusion Fuel has been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is theretofore unenforceable.

Item 9. Exhibits.

The exhibits filed herewith or incorporated by reference herein are listed in the Exhibit Index below.

Item 10. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective Registration Statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement.

Provided, however, that paragraphs (i), (ii) and (iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the SEC by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of this registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) If the registrant is a foreign private issuer, to file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A of Form 20-F (§ 249.220f of this chapter) at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the Act (15 U.S.C. 77j(a)(3)) need not be furnished, *provided* that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (a)(4) and other information necessary to ensure that all other information in the prospectus is at least as current as the date of those financial statements. Notwithstanding the foregoing, with respect to registration statements on Form F-3 (§ 239.33 of this chapter), a post-effective amendment need not be filed to include financial statements and information required by Section 10(a)(3) of the Act or Item 8.A of Form 20-F if such financial statements and information are contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Form F-3.

(5) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) If the registrant is relying on Rule 430B:

(A) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(B) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(ii) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(6) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, that registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

(d) The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b) (1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(e) The undersigned registrant hereby undertakes to file an application for the purpose of determining the eligibility of the trustee to act under subsection (a) of Section 310 of the Trust Indenture Act in accordance with the rules and regulations prescribed by the SEC under Section 305(b)(2) of the Trust Indenture Act.

- 1.10 For the purpose of giving this Opinion, we have caused to be made the following legal searches against the Company on 7 March 2024:

- (a) on the file of the Company maintained by the Registrar of Companies in the CRO for mortgages, debentures or similar charges or notices thereof and for the appointment of any receiver, examiner or liquidator;
- (b) in the Judgments Office of the High Court for unsatisfied judgments, orders, decrees and the like for the twelve years immediately preceding the date of the search;
- (c) in the Central Office of the High Court for any proceedings or petitions filed in respect of the Company in the last two years; and
- (d) on the register of persons disqualified or restricted from acting as directors of companies incorporated in Ireland which is maintained by the Registrar of Companies in the CRO against the names of the current directors and secretary of the Company as identified in the search results referred to in paragraph (a) above.

1.11 This Opinion is governed by and is to be construed in accordance with the laws of Ireland (as interpreted by the courts of Ireland at the date hereof) and anyone seeking to rely on this Opinion agrees, for our benefit, that the Courts of Ireland shall have exclusive jurisdiction to settle any dispute arising out of, or in connection with, this Opinion. This Opinion speaks only as of its date. We assume no obligation to update this Opinion at any time or to advise the addressee of this Opinion of any change in law or change in interpretation of law which may occur after the date of this Opinion.

1.12 No opinion is expressed on the taxation consequences of the Registration Statement and any of the matters contemplated thereby.

2. **Opinion**

Subject to the assumptions and qualifications set out in this Opinion, we are of the opinion that:

- 2.1 the Company is a public limited company and is duly incorporated and validly existing under the laws of Ireland;
- 2.2 the Company has the requisite corporate capacity to issue the Shares; and
- 2.3 the Shares, when issued by the Company in accordance with the terms of the Notes, the Warrants, the Securities Subscription Agreement and the Registration Statement, will be validly issued and fully paid or credited as fully paid.

3. **Assumptions**

For the purpose of giving this Opinion we assume the following, without any responsibility on our part if any assumption proves to have been untrue as we have not verified independently any assumption:

Authenticity and bona fides

- 3.1 the truth, completeness, accuracy and authenticity of all copy letters, resolutions, certificates, permissions, minutes, authorisations and all other documents of any kind submitted to us as originals or copies of originals, and (in the case of copies) conformity to the originals of copy documents, the genuineness of all signatures (electronic or otherwise), stamps and seals thereon, that any signatures (electronic or otherwise) are the signatures of the persons who they purport to be, that each witness to a signature actually witnessed that signature, and that each original was executed in the manner appearing on the copy;

- 3.2 that the register of members of the Company is up to date and has been correctly completed in accordance with the Constitution and the Companies Act 2014 (the “**2014 Act**”);
- 3.3 that, where an incomplete Registration Statement has been submitted to us, the original of such Registration Statement corresponds in all respects with the last or final draft of the complete Registration Statement submitted to us;
- 3.4 that the copies produced to us of minutes of meetings and/or of resolutions correctly record the proceedings at such meetings and/or the subject matter which they purport to record and that any meetings referred to in such copies were duly convened, duly quorate and held, that those present at any such meetings were entitled to attend and vote at the meeting and acted bona fide throughout and that no further resolutions have been passed or corporate or other action taken which would or might alter the effectiveness thereof and that such resolutions (whether passed at a meeting or by way of written resolution) have not been amended or rescinded and are in full force and effect;
- 3.5 that each director of the Company has disclosed any interest which he may have in the Transaction in accordance with the provisions of the 2014 Act and the Constitution and none of the directors of the Company has any interest in the Transaction except to the extent permitted by the Constitution;
- 3.6 the absence of fraud, coercion, duress or undue influence and lack of bad faith on the part of the parties to the documents and their respective officers, employees, agents and (with the exception of Arthur Cox LLP) advisers;

Restrictions and Disqualifications

- 3.7 that, based only on the Searches, no person who has been appointed or acts in any way, whether directly or indirectly, as a director or secretary of, or who has been concerned in or taken part in the promotion of, the Company has:
 - (a) been the subject of any declaration, order or deemed order for disqualification or restriction under the 2014 Act (including Part 14, Chapters 3 and 4 thereof) or any analogous legislation; or
 - (b) received any notice under the 2014 Act (including Part 14, Chapter 5 thereof) or any analogous legislation regarding a disqualification or restriction undertaking;

Accuracy of Searches and the Corporate Certificate

- 3.8 the accuracy and completeness of the information disclosed in the Searches and that such information is accurate as of the date of this Opinion and has not since the time of such Search been altered. In this connection, it should be noted that:
 - (a) the matters disclosed in the Searches may not present a complete summary of the actual position on the matters we have caused searches to be conducted for and the position reflected by the Searches may not be fully up-to-date; and

(b) searches at the CRO do not necessarily reveal whether or not a prior charge has been created or a resolution has been passed or a petition presented or any other action taken for the winding-up of, or the appointment of a receiver or an examiner to, the Company or its assets;

3.9 the truth, completeness and accuracy of all representations and statements as to factual matters contained in the Corporate Certificate at the time they were made and at all times thereafter;

No other information and compliance

3.10 that the Registration Statement and the documents contemplated therein are the only documents relating to the subject matter of this transaction and that there are no agreements or arrangements in existence between the parties to the documents contemplated by the Registration Statement which in any way amend or vary the terms of the Registration Statement or in any way bear upon or are inconsistent with the opinions stated herein;

Authority, Capacity, Execution and Enforceability

3.11 the filing of the Registration Statement and the issuance and sale of the Shares (i) does and will not contravene the laws of any jurisdiction outside Ireland; (ii) does not and will not result in any breach of any agreement, instrument and obligation to which any party thereto is a party; and (iii) will not be illegal or unenforceable by virtue of the laws of that jurisdiction;

3.12 that the Shares will be issued and sold in the manner contemplated by the Securities Subscription Agreement, the Notes and the Warrants, and the Registration Statement;

3.13 that, at the time of the issuance and sale of any of the Shares, the effectiveness of the Registration Statement (including any post-effective amendments) shall not have been terminated or rescinded;

3.14 that any document recording the authorisation of the transactions contemplated by the Registration Statement, including any issue of Shares, is a true, complete and accurate record of an authorisation which is valid in all respects;

3.15 that all authorisations, approvals or licences required under any law for any party (other than the Company) to enter into or to perform any of its obligations under a transaction contemplated by the Registration Statement have been obtained, remain valid and subsisting and have been complied with;

3.16 that no law or official directive of any jurisdiction, other than the laws of Ireland, affects any of the opinions expressed;

3.17 that, insofar as any obligation under any document examined is to be performed in any jurisdiction other than Ireland, its performance will not be illegal or unenforceable under the law of that jurisdiction;

3.18 that the formalities for execution required by the law of the place of execution of each document examined have or will be complied with;

3.19 that the Company will comply with its obligations under, and the representations and warranties contained in the documents referred to in, the Registration Statement;

Solvency and Insolvency

- 3.26 that:

4. **Qualifications**

The opinions set out in this Opinion are subject to the following reservations:

Enforcement and binding effect

- 4.1 The description of obligations in this Opinion as "enforceable" refers to the legal character of the obligations assumed by the relevant party under the relevant instrument. It implies no more than the obligations are of a character which the laws of Ireland recognise and will in certain circumstances enforce. In particular, it does not mean or imply that the relevant instrument will be enforced in all circumstances in accordance with its terms or by or against third parties or that any particular remedy will be available. In particular (without limiting the foregoing):

- (a) the binding effect and enforceability of the obligations of the Company contemplated under any of the Shares may be limited by liquidation, insolvency, bankruptcy, receivership, court protection, examinership, moratoria, reorganisation, reconstruction, company voluntary arrangements, fraud of creditors, fraudulent preference of creditors or similar laws whether in Ireland or elsewhere affecting creditors' rights generally;
 - (b) the binding effect and enforceability of the obligations of the Company under any of the Shares may also be limited as a result of the provisions of the laws of Ireland applicable to contracts held to have become frustrated by events happening after their execution, and any breach of the terms of any document by the party seeking to enforce such document;
 - (c) enforcement may be limited by general principles of equity. In particular, equitable remedies are not available where damages are considered to be an adequate remedy; the remedy of specific performance is discretionary and will not normally be ordered in respect of a monetary obligation; and injunctions are granted only on a discretionary basis and accordingly we express no opinion on such matters;
 - (d) claims may become barred under the Statute of Limitations 1957 or may be or become subject to the defence of set-off or counterclaim;
 - (e) enforcement will be subject to netting, claims and attachment and any other rights of another party to a contract; and
 - (f) enforcement may be limited by reason of fraud.
- 4.2 Where any obligations of any person are to be performed in jurisdictions outside Ireland, such obligations may not be enforceable under Irish law to the extent that performance thereof would be illegal under the laws of any such jurisdiction or contrary to public policy under the laws of any such jurisdiction and an Irish court may take into account the law of the place of performance in relation to the manner of performance and to the steps to be taken in the event of defective performance.
- 4.3 Where a judgment creditor seeks to enforce his judgment, he can only do so in accordance with the applicable rules of Irish courts. The making of an execution order against particular assets, such as a charging order over land or a beneficial interest therein or most types of investment or a third party debt order over a bank account or certain other debts, is a matter for the Court's discretion.

General Matters

- 4.4 A determination or a certificate as to any matter provided for in the Securities Subscription Agreement or the Registration Rights Agreement may be held by an Irish court not to be final, conclusive or binding if such determination or certificate could be shown to have an unreasonable, incorrect or arbitrary basis or not to have been given or made in good faith.
- 4.5 Where a party to the Securities Subscription Agreement or the Registration Rights Agreement is vested with a discretion or may determine a matter in its opinion, Irish law may require that such discretion is exercised reasonably or that such opinion is based upon reasonable grounds.

- 4.6 A particular course of dealing among the parties or an oral amendment, variation or waiver may result in an Irish court finding that the terms of the Securities Subscription Agreement or the Registration Rights Agreement have been amended, varied or waived even if such course of dealing or oral amendment, variation or waiver is not reflected in writing among the parties.
- 4.7 The effectiveness of any provisions of the Securities Subscription Agreement or the Registration Rights Agreement excusing a party from a liability or duty otherwise owed are limited by Irish law, particularly in relation to a fundamental breach of the contract.
- 4.8 We express no opinion as to any obligation which the Securities Subscription Agreement or the Registration Rights Agreement may purport to establish in favour of any person who is not a party thereto.
- 4.9 Any provision of the Securities Subscription Agreement or the Registration Rights Agreement which constitutes, or purports to constitute, a restriction on the exercise of any statutory power by any party thereto or any other person may be ineffective.
- 4.10 To the extent that any matter is expressly to be determined by future agreement or negotiation, the relevant provision may be unenforceable or void for uncertainty.

Due Diligence and Searches

- 4.11 Other than the Searches, we have not conducted any other searches whatsoever. We have conducted no due diligence nor have we reviewed or considered the regulatory status or compliance of the Company or any other person or body corporate. We have not conducted any due diligence on any person or body corporate, and in particular have not considered any due diligence on any of the parties to, or direct or indirect beneficiaries of, the Securities Subscription Agreement or the Registration Rights Agreement or enquired or investigated as to whether they hold appropriate licenses or approvals.

Yours faithfully,

Arthur Cox LLP
